Product Description

FERTILE EARTH FORMULA® is a broad-spectrum plant food designed for fertigation (fertilization through irrigation) that does more than fertilize. In addition to premium plant food (NPK), Fertile Earth Formula® contains **BioNatra**; an all-natural bio-catalyst that naturally increases healthy biological activity in the plant/soil system. **BioNatra** raises natural microbial activity that soils need to maintain a healthy ecology. **BioNatra** accelerates the breakdown and conversion of expired plants and decomposing organic matter into humus; the most natural source of plant nutrition. **BioNatra** also provides nutrients not available in fertilizer including vitamins, enzymes, complexed carbohydrates and amino acids derived from naturally occurring bacteria and fungi. Fertile Earth Formula can be applied in conjunction with most herbicides, insecticides and fungicides and will not stain or burn.

Product Specifications

- **Packaging:** Liquid concentrate—1 gallon, 2.5 gallon, 55 gallon, 275 gallon tote.
- **Derived From:** Low biuret Urea Nitrogen (won't burn), Phosphoric Acid, Potassium Hydroxide, Ascophyllum Nodosum and Complexed Carbohydrates.
- **Macronutrients:** Urea Nitrogen (N), Phosphate (P₂O₅) Soluble Potash (K₂O).
- **Trace Elements:** Ca, Mg, S, K, Fe, P, I, Si, Mn, Zn, Cu, C, Cl, Al
- **Bio-Stimulant:** Contains BioNatra – an all natural Bio-Stimulant or Bio-Catalyst that stimulates microbial activity in soil resulting in higher availability and uptake of nutrients, deeper root development and improved soil conditions.
- **Coverage:** 1 gallon covers 5000 square feet of landscape per month.
- **Application:** Any fertigation device, spray rig, or hose-end sprayer.
- **Guaranteed Analysis:** See table below

Formula Name	Macronutrients N-P-K	BioNatra Percentage	Guaranteed Analysis*
Early Season Jump Start	18-3-3	18.75%	14-2-2
Mid Season Maintenance	10-13-13	15.63%	8-10-10
Late Season Formula	16-4-4	6.25%	15-3-3
Garden Formula	10-13-13	25.00%	7-9-9
Bedding Plant Formula	10-20-10	18.75%	8-16-8
Indoor Plant Formula	10-13-13	9.38%	4-5-5
Other Formulations Available	Super-Calcium, Iron Chelate, Custom Formulas		

**NPK ratios change due to the inclusion of BioNatra in each formula*

For best results, distribute Fertile Earth Formula through the Fertile Earth Feeder, a revolutionary fertigation device that allows you to fertilize through your sprinklers.
