

# FertileEarth™ FEEDER

*an automatic fertilization device*

**Fertilize through your sprinklers  
and get more with less...**

*less water    fewer chemicals    better results*

## THE FERTILE EARTH FEEDER™

Now you can fertilize every time you water with the Fertile Earth Feeder - a revolutionary "fertigation" device from Fertile Earth Corporation. The Fertile Earth Feeder distributes small amounts of Fertile Earth Formula plant food to your entire landscape, not just the lawn, through your sprinkling system. Fertigation produces better results than traditional methods of fertilization and it is friendlier to the environment. The Fertile Earth Feeder is easy, cost-effective and safe for use around children and pets. With Fertile Earth you'll get *better results* with *less water* and *fewer harsh chemicals*.

## FERTILE EARTH FORMULA™

FERTILE EARTH FORMULA® does more than just fertilize. In addition to containing premium macronutrients (NPK), Fertile Earth Formula® also contains BioNatra; an all-natural biostimulant that makes our fertilizer better by naturally increasing microbial activity and unlocking bound up nutrients in the soil. The result is deeper root development, lower salt levels and the accelerated breakdown of thatch and other organic matter into additional sources of plant nutrition. BioNatra also provides nutrients not available in fertilizer such as vitamins, enzymes, complexed carbohydrates and amino acids derived from naturally occurring bacteria and fungi.

Available Formulas	Macronutrients N-P-K	Plus BioNatra	Guaranteed Analysis *
Early Season   Jump Start	18-3-3	18.75%	14-2-2
Midseason Maintenance	10-13-13	15.63%	8-10-10
Late Season Formula	16-4-4	6.25%	15-3-3

\* NPK ratios in the Guaranteed Analysis change due to the addition of BioNatra to each formula

BioNatra is an all-natural biological growth activator that enhances the performance of fertilizer and stimulates deep root development through natural biological processes. BioNatra has been professionally and university tested and has been used for over twenty years in the agriculture.

## FERTILE EARTH FEEDER

*Fertilize while you water!*

Now you can fertilize your entire landscape every time you water. You'll get better results with less water and fewer chemicals.
